

KMB Fat Tire Festival events.

The clinics will be taking place at Morning Mountain in Nelson. We will be working on our FUNDamental skills through games, skill drills and using our portable kid friendly stunt park. . We will build your riders skills in a safe environment enabling them to build their confidence so they can rip up the trails!

These clinics are structured to ensure each rider builds a better understanding of how their bike works, the fundamental skills to work on for having more fun and staying safe while riding with a fun group of peers!

Clinics open to NELSON CYCLING CLUB members only. Please visit the www.nelsoncyclingclub.org to get your Club Membership and support the building and maintenance of our trails!!
